

core23 blind VST PCA – condition

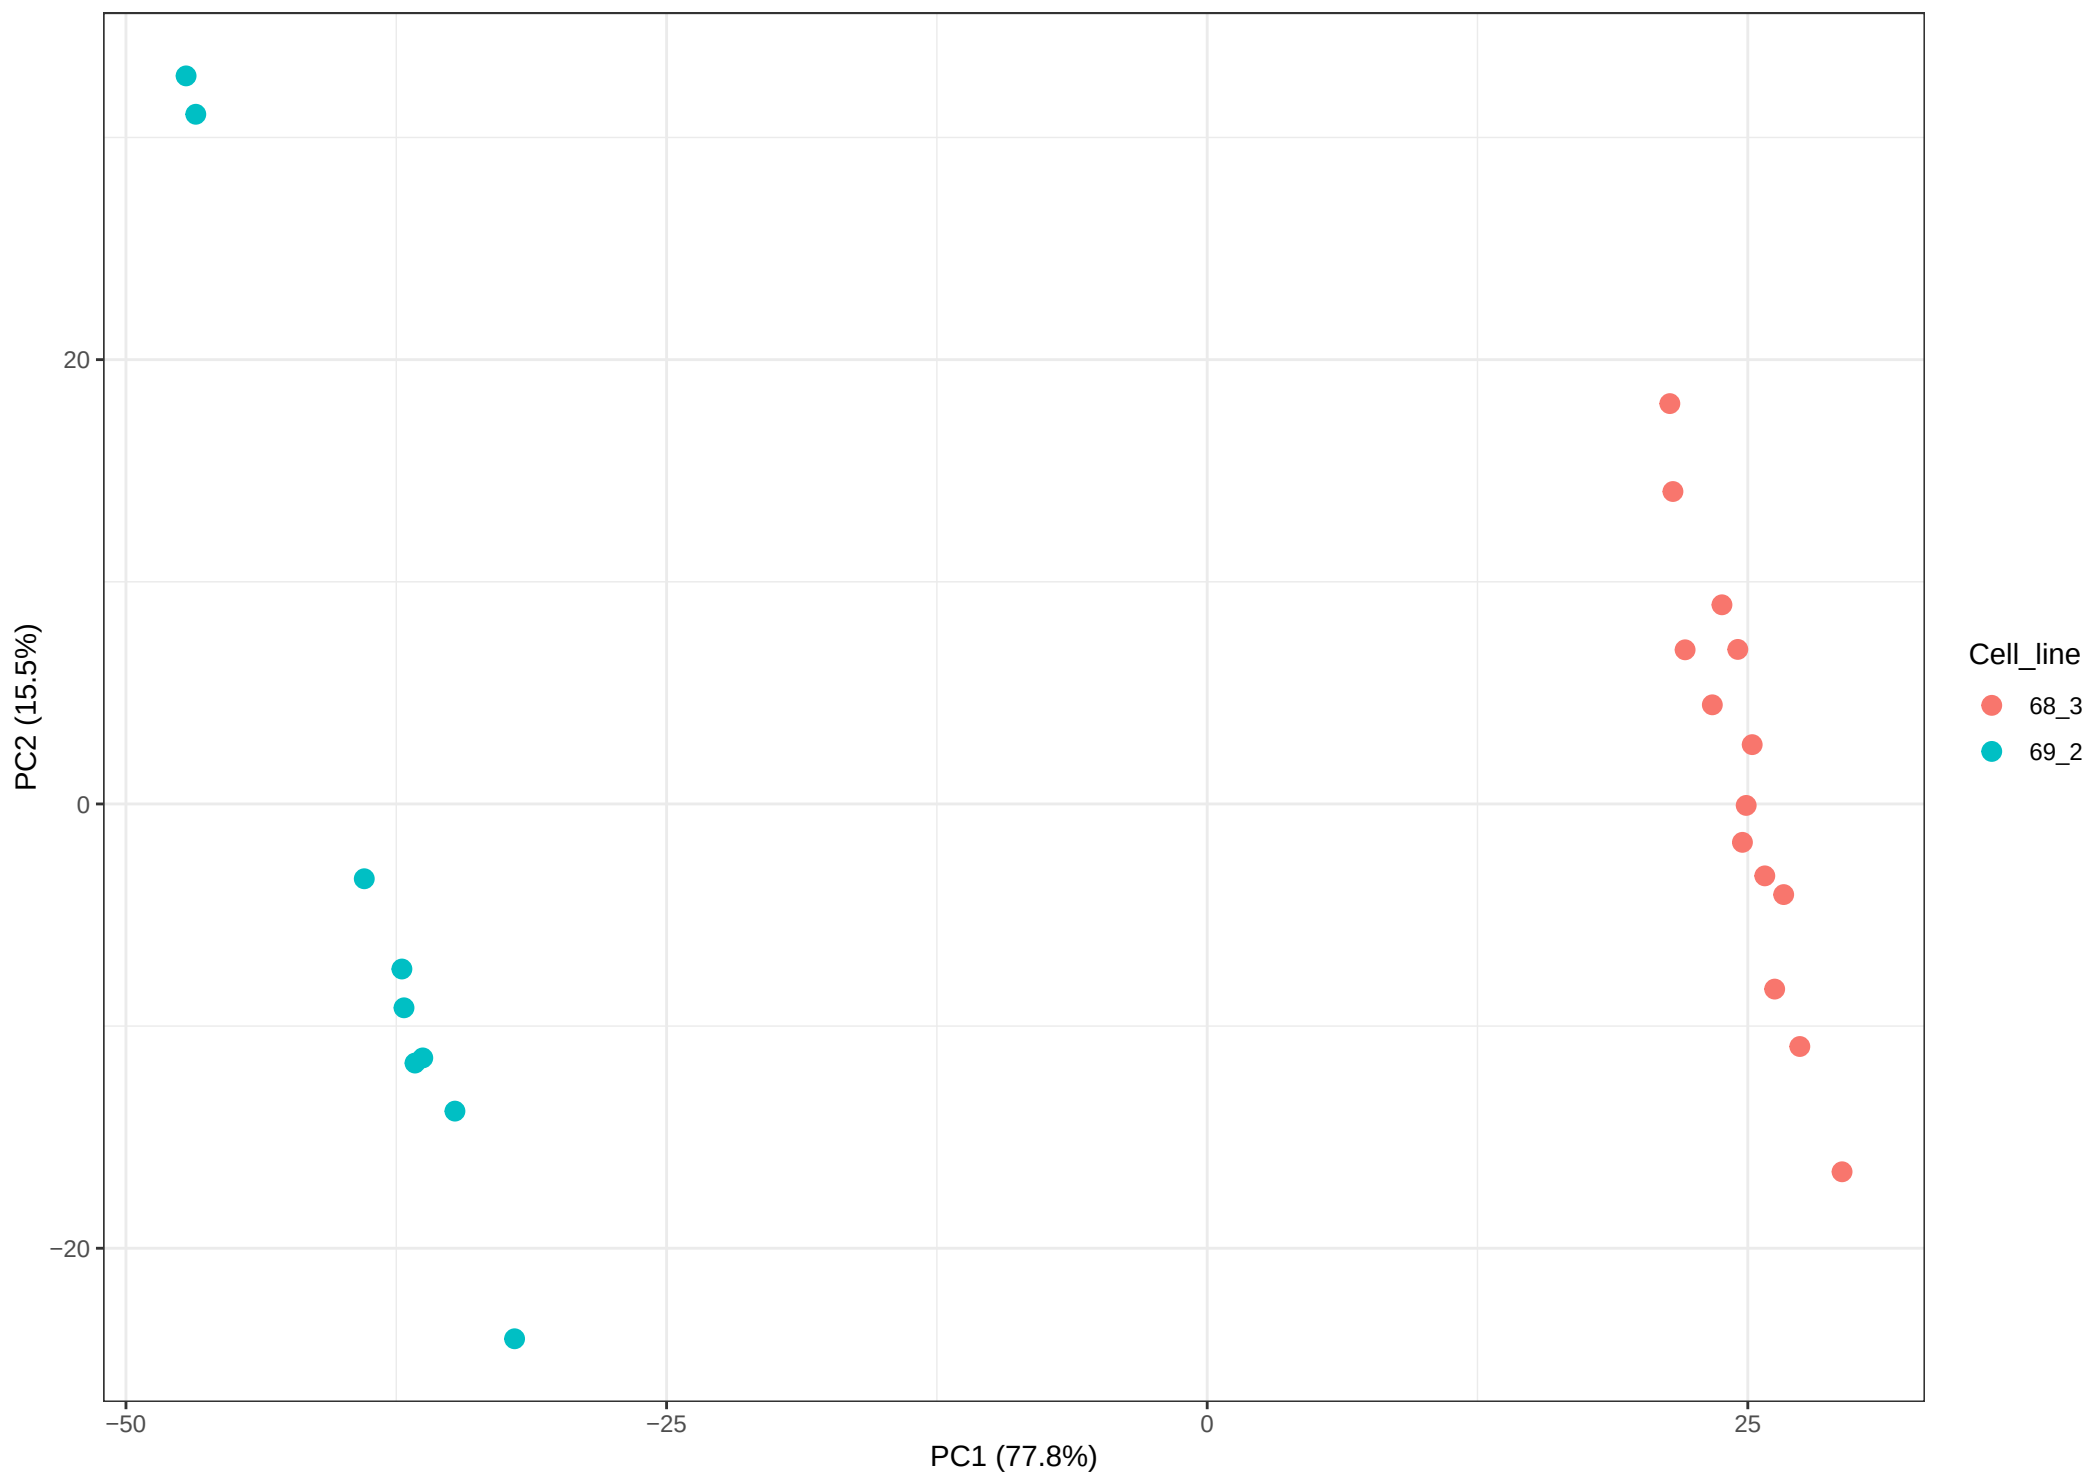

A PCA plot showing the first two principal components, PC1 (77.8%) on the x-axis and PC2 (22.2%) on the y-axis. The plot displays three clusters of data points (blue, green, and red) and their corresponding vectors (arrows) originating from the origin (0,0). The blue cluster is located in the upper left quadrant, the green cluster is in the upper right quadrant, and the red cluster is in the lower right quadrant. The vectors for each cluster point towards the center of the respective cluster.

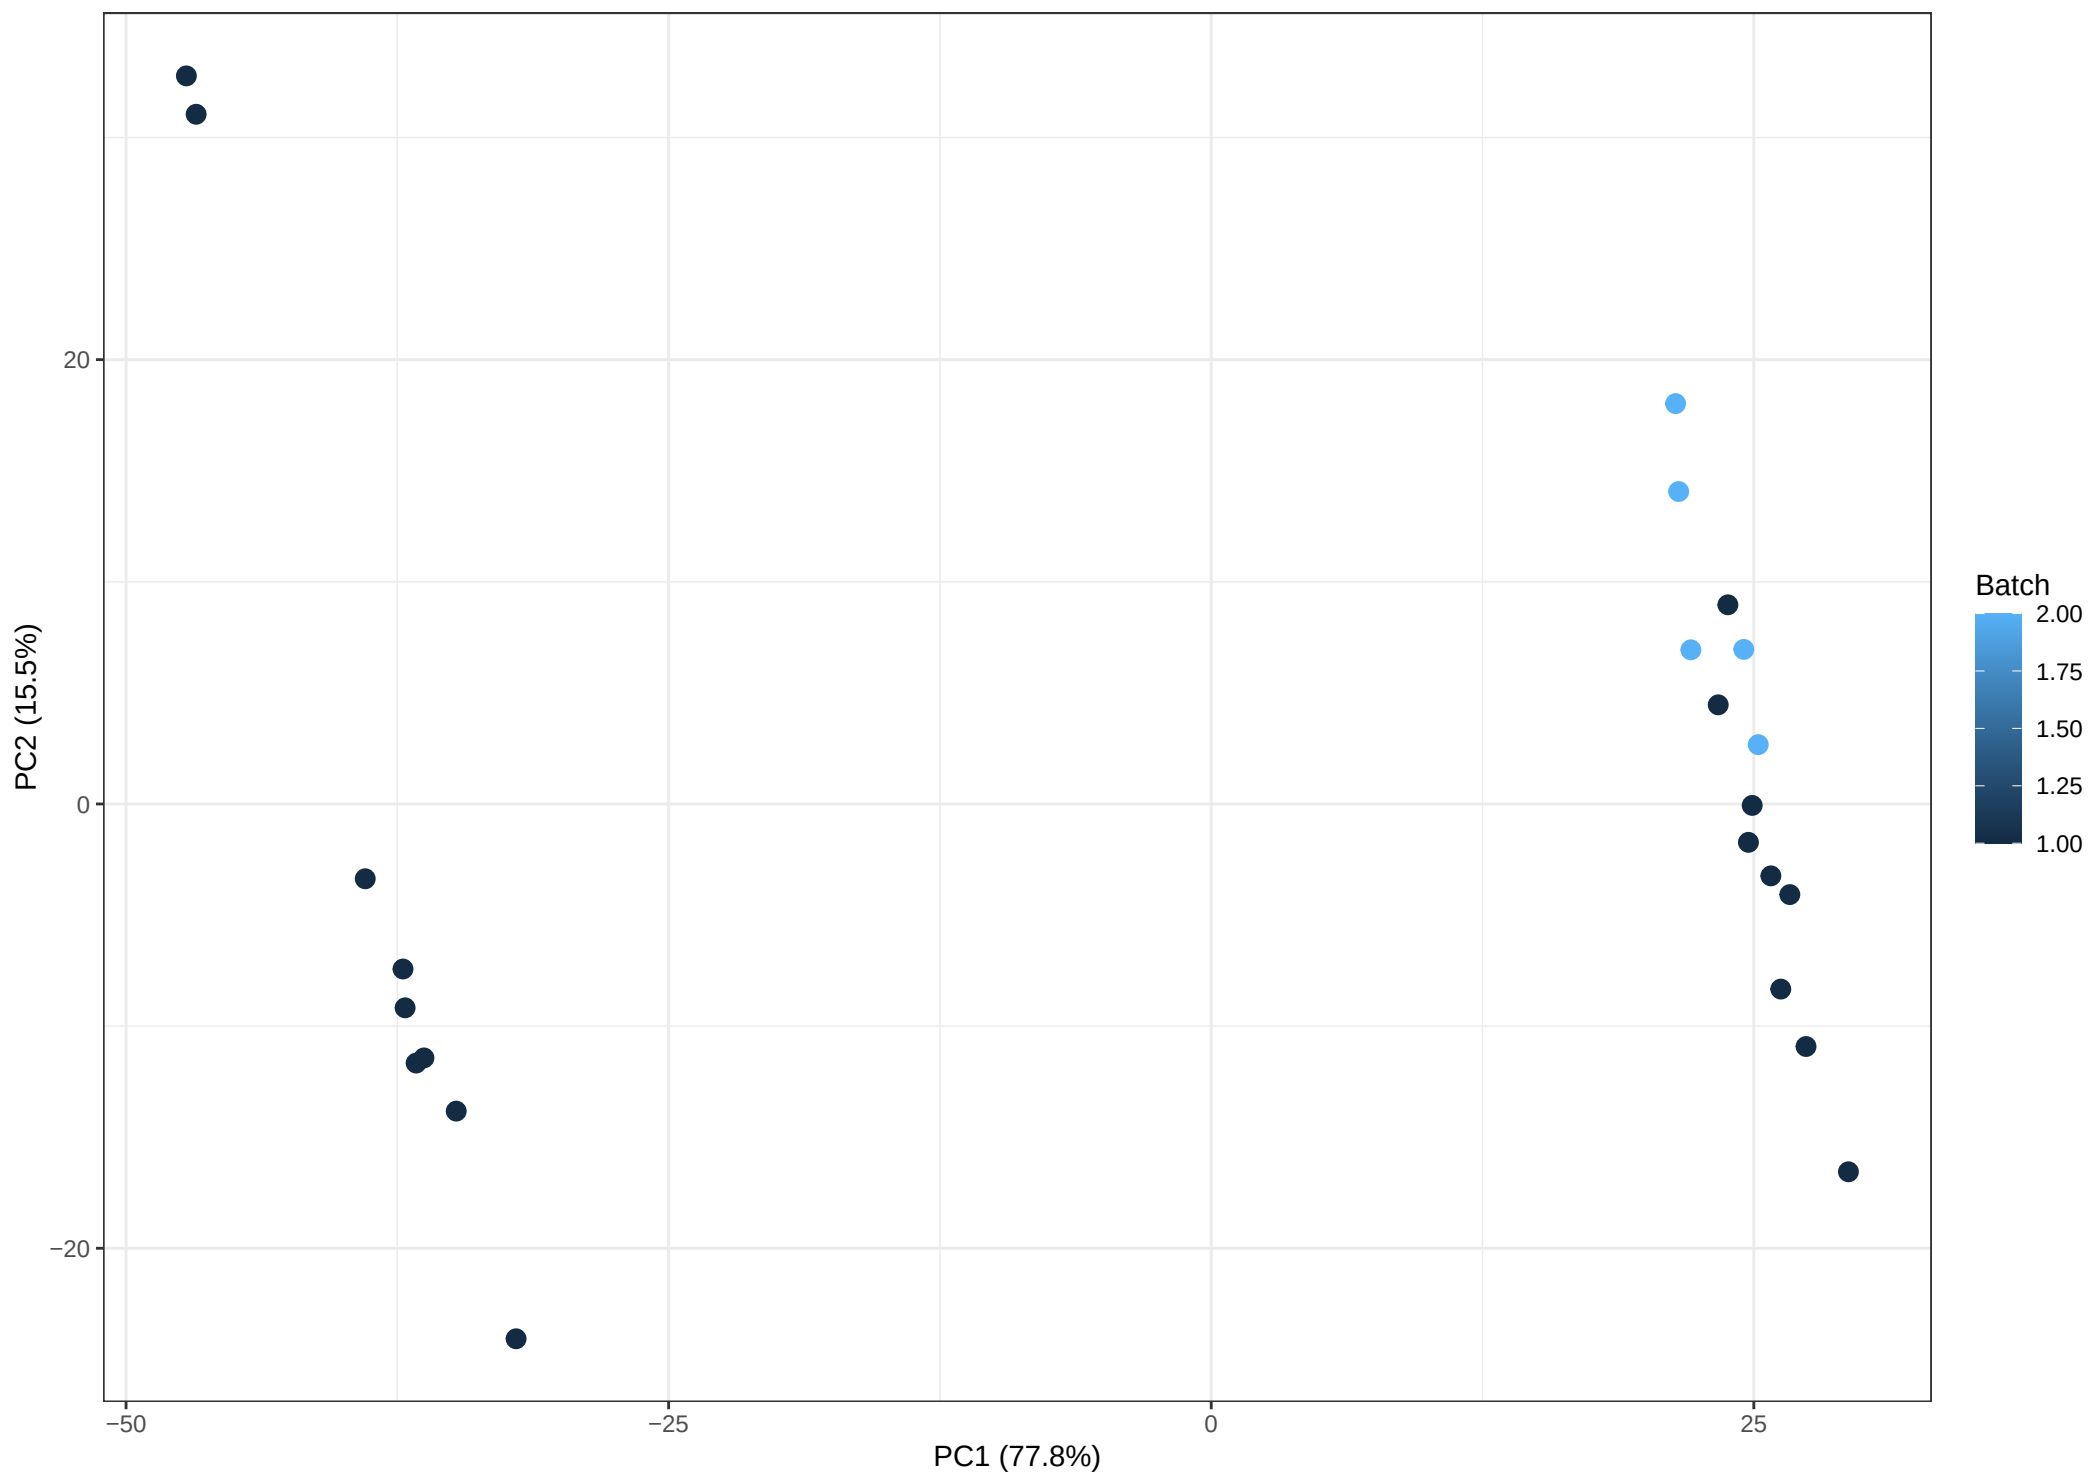

Cluster	PC1 (77.8%)	PC2 (22.2%)
Blue	-48	95
Blue	-48	92
Blue	-28	10
Blue	22	85
Blue	25	65
Blue	26	60
Green	-30	35
Green	-30	30
Green	-30	25
Green	-30	20
Green	22	90
Green	25	75
Green	25	70
Green	25	65
Green	26	60
Red	-35	45
Red	-30	25
Red	-30	20
Red	-30	15
Red	-30	10
Red	22	65
Red	25	60
Red	26	55
Red	28	45
Red	30	35
